PRODUCT & TECHNOLOGY EXECUTIVE | FOUNDER

Health Tech · Fintech · Digital Adoption · AI-Enabled Products

Product and technology executive with 15+ years making the hardest systems in healthcare and finance work for the people who use them. Finds the crux of a problem, rallies the team around it, and ships products people adopt: digital products for 3.5M BlueCross BlueShield members, PerfectServe's growth from $2M to $40M ARR, and TheraMatch, co-founded, acquired by TPN.health, and scaled to $1M+ ARR and 1 million members in under 12 months. Builds teams, earns buy-in from clinicians to boards, and stays close to the code.

CORE STRENGTHS

Product strategy · Platform architecture · Healthcare claims, payments & clearinghouse (X12 EDI) · Provider networks · AI workflow design & evaluation · HIPAA / SOC 2 · Enterprise B2B & B2B2C go-to-market · Team building · Elixir/Phoenix, Python, SQL, APIs

PROFESSIONAL EXPERIENCE

TPN.health | VP, Provider Networks & Technology **Feb 2025 – Aug 2026**

Behavioral-health provider network and clearinghouse serving 150,000+ verified clinicians and their payers.

- Scaled post-acquisition TPN Match, backed by a $12M raise, to **$1M+ ARR and 1 million members in under 12 months**.
- Led product and engineering for the platform that connects provider access to reimbursement: eligibility (270/271), claims (837), remittance (835), contracted-rate repricing, payer and provider ledgers, treasury and ACH payments, settlement, and reconciliation; integrated Stedi and J.P. Morgan Payments.
- Put a negotiated-rate estimation model into production while keeping contracted-rate repricing deterministic by code, location, and contract terms; drove HIPAA and SOC 2 Type II readiness for payer and health-plan requirements.

TheraMatch | Co-Founder (acquired by TPN.health, Feb 2025) **Aug 2024 – Apr 2025**

- Co-founded and built the product, technology, and strategy for a clinically driven behavioral-health matching platform; developed the initial matching algorithm and clinical delivery framework on Elixir, Phoenix, and LiveView.
- Brought in the first customers before institutional capital — **12 physician clients across three practices, ~$12K MRR** — then led the acquisition, integration, and go-to-market as TPN Match.

Atom & Bits | Founder | Product, Strategy & AI Advisory **Jun 2017 – Present**

- Since Aug 2026, building Claims Native (AI claim preparation for independent practices) and Corridor Robotics (managed AI for financial services).
- Advise founders and executives across manufacturing and health tech on business cases, product strategy and packaging, go-to-market, and AI workflows; fractional CTO/CPO engagements, including CraftingCopy.ai.
- Ran point on Paragon Truss's first enterprise deal — contracts, client relationship, and close — a **$500K annual contract**, the largest in company history; guided its AI product pivot.

One to One Health | VP, Product & Engineering | Chief Privacy Officer **Oct 2023 – Jun 2024**

- Built the product and engineering function from the ground up, hired the founding engineers, launched a virtual direct-primary-care platform, and negotiated vendor contracts that **cut annualized IT spend 17%**.
- Identified, designed, and developed the initial AI infrastructure for provider SOAP-note creation, **cutting charting time from 22 to 17.5 minutes** across all encounters while maintaining or improving clinician and patient satisfaction.

BlueCross BlueShield of Tennessee | Senior / Group Digital Product Manager **Apr 2016 – Oct 2023**

- Founding member of the digital team; led member web and mobile products for ~3.5M members plus broker, employer, and sales tools — **22 direct reports, 130+ matrixed, $10M budget**.
- **More than doubled digital adoption**, sustained member NPS of 60+ across lines of business, cut **$500K+ in annual admin cost** through self-service, and helped win five major accounts worth tens of millions in annual sales via partner API integrations.
- Delivered user-level personalization with the data-science team (15% web / 12% mobile engagement lift) and modernized the Salesforce sales platform, cutting booking time 75%.

PerfectServe | Product Marketing, Product Management & Implementation Leadership **May 2011 – Apr 2016**

- First product manager; provided product leadership as the company grew **from $2M to $40M ARR**; built the sales approach for a new market segment that generated **$3M+ in new revenue**.
- Led or co-led 10 health-system implementations tied to 10%+ ARR growth; cut implementation time and cost 20%+; grew product utilization 150%+ year over year.
